We trust you will find products here that will promote natural, active birth. To assist you with ordering, we offer the following information:

How to order

Please use our website to place your order. As we are committed to offering the lowest prices possible.

If you are ordering for an institution such as a hospital or Health Service in Australia or the UK, please email your Purchase Order to sales@pregnancy.com.au

Details regarding shipping methods, tracking of orders, payment of local taxes (outside Australia) and our returns policy can all be found [here](#).

Payment

We accept MasterCard and Visa through our website (not American Express or Diners Club). Payment can also be made using electronic bank transfer. Orders must be pre-paid unless we receive an official Purchase Order from an Australian or UK health/NHS service. Quotes and bank details can be provided on request.

Your satisfaction guaranteed

We want you to be completely satisfied with our products and we will make every effort to ensure that your order arrives in good time and condition. If you have any questions or require further information, please contact us:

BIRTH POOL IN A BOX - REGULAR

WB008

\$310.00

Birth Pool in a Box personal use regular size pool comes with one liner and instruction booklet. The use of water for labour and birth has proven benefits. But not all birthing pools are equal. Birth Pool in a Box aims to provide the most comfortable, convenient and safest birthing pool at a reasonable price.

FEATURES

Birth Pool in a Box is compatible with the Birth Pool in a Box Liners for Regular Pool and the Fitted Heat Cover for Regular Pool. The heat cover and additional liners can be purchased separately.

The use of water for labour and birth has proven benefits. But not all birthing pools are equal. Birth Pool in a Box aims to provide the most comfortable, convenient and safest birthing pool at a reasonable price.

Women choose birth pool in a box because it:

- Is fantastically comfortable and welcoming
- Has handles in all the right places
- Has a built-in seat (Regular model) for bonding with baby after birth
- Is a snap to clean up with its included disposable liner
- Has a size that is right for you and your place of birth
- Can be adjusted to the right height for you with its 3 independent chambers
- Is fit for purpose: certified by medical device regulators in Europe and the USA. Evidenced by the CE mark.
- Is #1 in over 8,000 births a year are in a birth pool in a box

SPECIFICATIONS

Weight 9.5 kg

Dimensions 193 x 165cm x 69 cm

BIRTH POOL IN A BOX - REGULAR MINI POOL

WB002

\$250.00

Introducing the brand new, latest design in Pool technology. Birth Pool in a Box Mini Regular with liner made with Eco-friendly material. The new material in the Eco pool does not have additives that have been linked to harming animals and people.

FEATURES

One disposable liner is included and additional liners are available. Using a liner also means two "containers" for the water, giving added protection against water leaks and makes cleaning up a snap – removing a distraction after the arrival of your new baby.

Deep enough to give buoyancy without compromising midwife support. The minimum recommended depth of water to provide buoyancy for a mother in labour is 45cm. New birth pool in a box Mini has an internal depth of 66cm.

New top handles added for control Mothers asked for a means to control their movements while floating and some wanted additional gripping points.

Three independent chambers for improved safety. The sides of birth pool in a box are made of 3 independent tubular chambers stacked on top of each other. If one of them should puncture by accident, only 1/3 of the wall height will be lost.

Sturdy enough for birth partner and midwives to support from any position. Once the pool is filled, the sides are sturdy enough for a 15 stone (95.5kg) person to sit on the side without collapsing it. If your partner plans to join you in the pool, we recommend the regular size.

Every single pool is inflated and left for 8 hours before testing and packing. Then 5-10% are randomly tested by independent inspectors. That means structural integrity you can depend on.

Fast to inflate and fill with any air hand pump or electric pump, comes with standard fittings.

Water filling time depends on your hot-water system. This Regular pool holds the equivalent of approximately 4 bathtubs of water.

| WEIGHT | 7 kg |
| DIMENSIONS | 165 x 145 x 66cm |

LA BASSINE MAXI BIRTH POOL

WB004

\$260.00

Introducing the brand new range of La Bassine MAXI birthing pools designed for women who prefer the added space of a larger pool. The Maxi is 50% larger than our La Bassine Original birthing pool, holding up to 628 litres of water and can comfortably accommodate two people. After consulting with our midwives and international distributors, our maxi pool has been manufactured with user comfort and convenience at the forefront of design.

FEATURES

There are two grab handles at the top, for ease of access into the pool. On the inside, there are four more handles, perfectly placed for added comfort – just where you need them. There are no unnecessary built in obstacles inside the pool. Our Maxi pool has been designed to help you enjoy a safe and comfortable birth. As with our La Bassine original birth pool, it has transparent sides, allowing clear visibility. Cocoon like shape, with plenty of room for two people to move around.

Deep blue colour to enhance the sense of privacy and induce deep relaxation.

- Deep, inflated floor, to give the extra comfort needed during active birth positions such as kneeling and squatting.
- Transparent sides, to give midwives good visibility from outside the pool.
- Perfect water depth that fully covers your belly without being too deep that you feel insecure.
- Four solid internal handles, perfectly placed, exactly where you need them! Use to assist in position changes, or to grab on to while you push.
- Two top handles for assistance when getting in and out of the pool.
- The Maxi pool has three separate chambers! If one chamber were punctured, water would be retained by the other two.

SPECIFICATIONS

| | |
|------------|-----------------|
| WEIGHT | 10 kg |
| DIMENSIONS | 52 x 45 x 26 cm |

LA BASSINE REGULAR BIRTH POOL

WB009

\$220.00

FEATURES

- 7.5cm inflated floor for comfort whilst kneeling
- 2 internal handles on either side
- Built in vertical I-beams for incomparable firmness to the wall, and as a fail safe mechanism in case of puncture
- Does not contain any phthalates, lead or cadmium
- Each pool is factory tested to ensure no defects and is ethically manufactured
- Disposable liner can be purchased separately
- External size: 165 cm X 135 cm
- Internal size: 125 cm X 95 cm
- Depth: 65cm
- Holds 450 Litres of water

A truly new concept in birthing pool, La Bassine™ was designed by a mum to create an intimate and soothing birth environment like no other. Combining style, comfort and privacy with optimum tractability, it has become the best selling birthing pool worldwide.

La Bassine is recommended all over the world by midwives for its practical features, phthalates free material, and above all its unique cocoon like design. Liners are available for the La Bassine birth pool.

BIRTH POOL IN A BOX PROFESSIONAL

WB011

\$460.00

The "Birth Pool In A Box Professional Pool " is a high specification pool, designed with extra durability and resilience for multiple uses. It is the same colour, shape and size as the Regular Personal birth pool in a box but has 44% thicker material and a protective second layer on the base. This pool has been proven to be extremely popular in many hospitals. The Professional pool is designed for up to 40 uses.

As with all Birth Pools in a Box pools, the Professional pool meets all applicable Medical Device standards in the EU and USA, carrying the CE mark under the EU Medical Devices Directive 93/42/EEC. It also does not contain nasties or allergens – banned phthalates, cadmium, lead or latex.

The Professional pool is compatible with the Birth Pool in a Box Liners for Regular Pool and the Fitted Heat Cover for Regular Pool. Liners and heat covers need to be purchased separately.

FEATURES

Women choose birth pool in a box because it:

- is fantastically comfortable and welcoming
- has handles in all the right places
- has a built-in seat for bonding with baby after birth
- is a snap to clean up with its included disposable liner
- can be adjusted to the right height for you with its 3 independent chambers
- is fit for purpose: certified by medical device regulators in Europe and the USA. Evidenced by the CE mark.

Over 40 National Health Service Trusts in the United Kingdom use birth pool in a box
